REPORT OF FIREWARDS

The Town has had no destructive fire during the year. The Department responded to six signal alarms and several still alarms. Agreeable to the vote of the town at the March meeting the fire line was extended on Temple Street about one thousand feet and two hydrants installed. Also it was extended about the same distance on Mill Street with installation of two hydrants. The hydrants are of the latest improved type. Four water holes have been dug, one on property of Leon Russell, one on property of Napoleon Thibault at the Butler four corners, one on property of Albert Desgrosiellier's and one on property of John Phillips on the Fitchburg road. There is more work of this kind that should be done in the future.

TO THE SELECTMEN:

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose in reminding local citizens of the danger from such fires and how they can help prevent them. The following is offered with the respectful request for publication in your town report.

Sincerely,

JOHN H. FOSTER,
STATE FORESTER

FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fires but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say, "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gain-

ful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

CHAMBERLIN FREE PUBLIC LIBRARY

REPORT OF LIBRARIAN TO THE TRUSTEES

I hereby submit the Annual Report of the Library for the year ending December 31, 1949.

The library has been open every Monday and Wednesday evening, and Friday afternoon of the past year. When a legal holiday came on Monday the library was open the following Tuesday.

No. of visitors during the year	3,405
No. of adult visitors	760
No. of young people	2,645
No. of books loaned (Fiction and Non-Fiction)	3,824
No. of magazines loaned	1,025
No. of new books added (adults 85, junior 33)	118
No. of gift books received	18

This year the adult patronage of the library shows an increase of 33 people; 114 more non-fiction books were loaned, and 45 more magazines.

The State Library has furnished Bookmobile Service to the library this year. Every two months we are able to borrow 30 to 35 children's books for a two month period. This is a great help in supplementing our young people's department. As in the past, the State Library has been most co-operative in the loan of technical and reference books as needed.

A new Webster's Dictionary has been added to our reference department.

We are most grateful to all who have given books to the library.

Respectfully submitted,

GERTRUDE S. KIMBALL

REPORT OF THE GREENVILLE PARK COMMISSION

TO THE CITIZENS OF GREENVILLE:

We respectfully submit our second annual report as your Park Commissioners.

TAFT MEMORIAL PLAYGROUND:

More extensive work was done at the field. There was more fill added as well as graded, rolled and seeded. An area was graded and filled where we have erected some hard equipment.

A grandstand was erected at the west side of the field with a seating capacity of about 225 persons. Attached to the grandstand is a building which at present is being used for storing equipment.

RECREATION PROGRAM:

Through the efforts of the Civic Playground Committee another successful summer program was furnished. A playground instructor was hired who proved very able and a wealth of activities were available. This program as in the past not only kept the children off the streets but provided instructions in all sports.

FUTURE DEVELOPMENTS:

We are in hopes that the Civic Playground Committee will be successful in hiring a summer playground instructor to supervise the summer activities again this year.

Plans for the coming season call for more grading and beautifying of grounds and surroundings.

AUDITORS' REPORT

We have examined the accounts of the following town officers: Selectmen, Town Treasurer, Tax Collector, Town Clerk, Water Commissioners, Fire Wards, Cemetery Trustees, Library Trustees, Town Hall Rent Book and Municipal Court for the fiscal year ending December 31, 1949 and find them correctly cast and properly vouched.

We find that the Road Agent's bills rendered to the Selectmen correspond with the order issued to him.

As required by the State Tax Commission, we examined the list of unpaid taxes and found this list correct.

You are hereby notified to meet at the Town Hall in said district on the 14th day of March 1950 at 9:00 o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a member of the School Board for the ensuing two years.
5. To choose a Treasurer for the ensuing year.
6. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
7. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
8. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
9. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
10. To see if the district will vote to raise and appropriate the sum of \$300 to provide an additional \$15,000 of insurance on the Public School Building.

Given under our hands at said Greenville this 15th day of February, 1950.

REPORT OF SCHOOL SUPERINTENDENT

TO THE SCHOOL BOARD AND CITIZENS OF GREENVILLE:

I respectfully submit my third annual report as your Superintendent of Schools.

INSTRUCTION

I am pleased to report that your school under the able direction of Mrs. Helene Greene with the very competent assistance of Mrs. Edna LaPierre and Mrs. Mary Pelletier is showing steady progress. The morale and spirit is the highest it has been in quite some time. This has been reflected in the renewed interest that the parents and friends have taken in the school and school activities.

Every effort is being made to improve the instruction in your school. Your teachers are actively interested in improving themselves professionally. Mrs. Greene, Mrs. LaPierre and Miss Wheeler participated in an extension course held the past fall and winter at Wilton. This involved much time, effort and expense.

The educational program is being developed to fit the needs of the individual child rather than the group as a whole. Our testing program is planned to aid the teachers in determining the abilities of the individual, his strengths and weaknesses. An intelligence test is given to each pupil each year in grades 3, 6 and 8. An achievement test is given each May, and as often throughout the year as the need arises. Thus, we are able to judge from year to year the progress each child is making and the areas in which more emphasis must be placed.

Two years ago we adopted a new spelling series to help improve this area of work. This series emphasizes word analysis and paragraph writing rather than lists of words. We have already observed a marked improvement in this area as well as in vocabulary work. At the same time we inaugurated a new language series, replacing one that had been in use for many years. This series has contributed greatly in enlivening and improving the work in this subject.

An outstanding piece of work has been done in correlating art with the social studies, particularly in grades 6, 7, and 8. It is surprising the art ability that has been uncovered in this group.

Field trips have contributed a great deal to the young people's understanding of their community. These trips are a definite and vital part of their education.

Our visual education program has been expanded this year and we have been able to bring into the classroom many experi-

ences, which otherwise the young people would not be getting. A well-planned audio-visual program will do twice the teaching in half the time.

Miss Wheeler is to be commended for the very fine work she has been doing with the young people in music. Her performances have indicated excellent and proficient planning.

The nursing services have been carried out well under the capable supervision of Miss Sybil Beatham. An effort has been made to keep the parents informed of the health status of their children.

BUILDING IMPROVEMENTS

At the last annual meeting the district voted to alter the front of the public school building and to install boys' and girls' lavatories on the first floor. The work was carried out with dispatch, so that when school opened this fall they were ready for use.

The lavatories present a modern, clean, healthy appearance, a marked improvement over that which we had a year ago. The rooms are painted in light pastel shades, with artificial tiling partly up the walls. The floors are covered with heavy duty linoleum. The wash bowls are of new white porcelain and very attractive. We were able to use some of the fixtures in the old basements, thus reducing the cost and making it possible to complete the renovation within the budget provided.

Placing the new lavatories on the first floor has done everything that we expected in the area of supervision and administration. It is much easier to supervise and develop good health habits and attitudes than formerly.

The exterior of the building was painted for the first time in many years, thus giving our building a neat, trim appearance.

We have the two halls to replaster and repaint. With this done our building will be in excellent condition and very easy to maintain.

BUDGET

The school board's budget for 1950-51 calls for an appropriation of \$20,244.63 an increase of \$544.73 over last year's. These increases are reflected in teachers' salaries \$545.00; insurance, bonds and expenses \$200.63; administrative expenses (largely controlled by Supervisory Union Boards) \$185.12; expenses related to operation of school plant \$64.00; miscellaneous as health supervision, textbooks, scholars' supplies, etc. \$140.00. Thus, the aggregate increases become \$1,134.75. Certain economies and reductions of expenses were effected to the extent of \$590.00, making the net increase the amount quoted above.

It will be noted that the only income that can be estimated for 1950-51 is that for elementary tuitions, amounting to approximately \$150.00. Previous to a meeting of the last Legislature, all dog taxes were turned over to the school district. The new law specifies that the dog tax shall be retained by the Town Treasurer and not passed over to the School Treasurer. This act became effective Jan. 1, 1950.

The total assessment required to cover the school board's budget for 1950-51, is \$20,094.63 an increase of \$3,447.77 over that of last year. A loss of \$2,903.02 in income is realized due to the fact that the dog tax will not be forthcoming as described above, and also because the school board cannot visualize a balance of \$2,803.02 as it did on June 30, 1949.

I wish to express my appreciation to the School Board and Citizens of Greenville for the excellent cooperation they have given me this past year.

Respectfully submitted,

NEWELL J. PAIRE

STATE CHILD HEALTH AND IMMUNIZATION CLINIC

The annual child health and immunization clinic was held at Legion Hall, the morning of May 26, 1949, with twenty-eight pre-school children and infants in attendance.

A committee of local women from the Legion Auxiliary weighed and measured each child and a history was taken, then he was given a physical examination and if desired, immunization.

There were thirteen pre-schools given their first inoculation against diphtheria, whooping cough and tetanus. These same children received a second and a third inoculation by Dr. Harlan Karr, on July 1 and August 3 respectively thus completing their immunization against the three before-mentioned diseases.

There were ten vaccinations against smallpox. Dr. Harlan Karr and Dr. Norman Jackson were the examining physicians assisted by Sybil Beatham, R. N., and Alexine Duval, R. N.

Mrs. Christine Gaaney, chairman, Mrs. Jeanne Caouette, Mrs. Alexine Caron and Mrs. Lucille Dube assisted in the routine work at the clinic.

Mrs. Alexine Caron gave her services at the 2nd and 3rd inoculation clinics, as recording secretary. Dr. Hector Thi-beault administered the serum at the third clinic and also gave six vaccinations.

Each child needing corrective work was visited after the clinic and the conditions needing correction explained to the mother and ways and means of obtaining it were discussed.
