

ANNUAL REPORT
of the
Town Officers
of
GREENVILLE, N.H.
for the
Year Ending
December 31, 2006

This Town Report is dedicated to

Robert Taft

in tribute to his services to the Town of Greenville. He has served as Moderator, Municipal Court Judge, Trustee of the Chamberlin Free Public Library, and member of the Planning Board. His dedication to this community was further exemplified when he and his brother donated to the State of New Hampshire more than one hundred acres of land along the Souhegan River. He has participated in numerous community activities. We thank him for his service.

Kathleen Valliere 355 votes *declared winner

Town Clerk for Three Years

Kathleen Valliere 348 votes *declared winner

Treasurer for One Year

Zebadiah. G. Kellogg-Roe 309 votes *declared winner

Fireward for Three Years

David J. Nichols Jr. 156 votes

Ed White (write-in) 194 votes *declared winner

Supervisor of the Checklist for Six years

Jean Lambert 341 votes

Cemetery Trustee for Three Years

James Hartley 341 votes

Library Trustee for Three Years

Write-ins no winner

Library Trustee for Three Years

Write-ins no winner

Trustee of Trust Funds

Marshall Buttrick nominated from the floor and voted unanimous *declared

Article 1 Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the town zoning ordinances as follows: **Add** clarifying text to Section 5.8, Special Exception for Single Family Residence as follows [additions appear in bold type]: "Special Exception may be granted for the location of single family residence in the Commercial (C) **District and in the Commercial/Industrial (C-I) District behind the 400 foot setback from Route 31 as defined in Section 2.5**, provided each meets the following requirements:"

Yes 242 No 97

Article 2 Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the town zoning ordinance as follows: **Remove** the lot descriptions below from the Commercial-Industrial District in Section 2.5 because of lots being described were included in the Downtown District (Section 2.7) in 2003: "Further, the south side of High Street to the center of the Souhegan River is considered part of the C-I District. This includes lots enclosed from the intersection of Church Street and High Street, due south to the center of the Souhegan River, following the center line of the Souhegan River eastward, to the center of the Souhegan River Bridge on Main Street, northward on Main Street to High Street, westward to High Street, returning to the intersection of Church Street and High Street."

Yes 242 No 85

Article 3 Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the town zoning ordinance as follows: **Correct** a typographical error in paragraph reference in the introduction of Section 2.1 [correction appears in bold type]: "If uncertainty exists with the boundaries shown on Figure 1 and the original map, the District Boundaries Rules shall govern as outlined herein and at the end of this section, and in paragraph 3.6 of Section 3."

Yes 254 No 62

Article 4 Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the town zoning ordinance as follows: **Change** "Business District" to "Commercial, Commercial-Industrial and Industrial Districts" in paragraph c. of Section 4.5, Outdoor Advertising. "c. Artificial illumination of outdoor signs shall be permitted in the Commercial, Commercial-Industrial and Industrial Districts."

Yes 227 No 106

Article 5 Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the town zoning ordinance as follows: **Add** the following text as paragraph "d." of Section 4.5, Outdoor Advertising: "d. Artificial illumination of outdoor signs shall be permitted in the Downtown District subject to review and approval of the proposed illumination by the Planning Board. Because the Downtown District contains a mix of residential and business uses, any proposal for artificial illumination of outdoor signs in the Downtown District shall be carefully considered with regard to the provisions of Section 3.3 of this Zoning Ordinance, Prohibited Uses. The Planning Board shall solicit input on such proposals from abutters and residents at a public meeting. Special restrictions on the operation of artificially illuminated signs in the Downtown District may be imposed when deemed necessary by the Planning Board."

Yes 227 No 105

Article 6 Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the town zoning ordinance as follows: **Revise** the definition of Structure in Section 1.4, Definition of Terms, to clarify the reference to height for fences and walls. "STRUCTURE: Anything constructed or erected which requires location on the ground, including signs. Fences or walls used as fences, the maximum height of which is less than four feet above the ground, are not included."

Yes 214 No 110

Article 8 To see if the town will vote to raise and appropriate the sum as necessary to defray the town charges and make appropriations of the same as shown on the posted budget.

- Article 22 Motion made by Mr. Hartley and seconded by Mark Winslow and **voted in the affirmative** to raise and appropriate the sum of Thirty-nine thousand seventy-four dollars (\$39,074) for the purpose of reconstructing and paving town roads.
- Article 23 Motion made by Ernest Robinson and seconded by Mr. Hartley and **voted in the affirmative** to adopt the provisions of RSA 72:28, V and VI for an option veteran's tax credit and an expanded qualifying war service for veterans seeking the

tax credit on the taxes due on residential property. The optional veteran's credit will be \$500 rather than \$250.

- Article 24 Motion made by Mr. Hartley and seconded by Jean Bouley and **voted in the affirmative** to authorize the Selectmen to renegotiate the three-year lease with Pilgrim Foods for use of the town wells.
- Article 25 Motion made by Mr. Hartley and seconded by Mr. Dow and **voted in the affirmative** to adopt the most recent BOCA codes and revisions as they become available.
- Article 26 Motion made by Mr. Hartley and seconded by Mrs. Hartley and **voted in the affirmative** to raise and appropriate the sum of Thirty-five thousand dollars (\$35,000) for the repair of the sludge holding tank at the Wastewater Treatment Plant and to authorize the use of the unreserved fund balance for this purpose.
- Article 27 Motion made by Mr. Eaton and seconded by Mrs. Valliere and **voted to pass over** to raise and appropriate the sum of Ninety-three thousand dollars (\$93,000) for the purchase and hiring of an operator of a sidewalk snowplow/blower.
- Article 28 Motion made by Ted de Winter and seconded by Mr. Hartley and **voted in the affirmative** to authorize the Selectmen to appoint no more than five (5) alternate members to the Planning Board.

A consensus was taken from the attendees and was voted in the affirmative not to charge user fees for the use of the Town Pool.

Meeting adjourned 1:35 PM

Respectfully submitted,
Kathleen Valliere

**TOWN WARRANT
2007
STATE OF NEW HAMPSHIRE**

Polls will be open from 8:00 a.m. to 7:00 p.m.

To the inhabitants of the Town of Greenville in the County of Hillsborough in said State qualified to vote in Town Affairs:

You are hereby notified to meet at the Greenville Elementary School in said Greenville on Tuesday, the 13th day of March, next, by 8:00 of the clock in the forenoon, to act upon the following subjects:

Article 1. To vote for:

Selectman for three years
Treasurer for one year
Moderator for one year
Fireward for three years
Cemetery Trustee for three years
Library Trustee for three years
Library Trustee for three years
Library Trustee for two years
Trustee of Trust Funds for three years

Article 2. Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board to **replace** Appendix B of the Zoning Ordinances, Cluster Development Ordinance, with the Open Space Residential Development (OSRD) Ordinance approved by the Planning Board on February 5, 2007, and **revise** the following sections for consistency with the new ordinance:

a. In the introductory paragraphs of Sections 2.4.1 and 2.5.2, and in 2.7.4 paragraph a.1, **replace** references to "Cluster Development Ordinance" with "Open Space Residential Development Ordinance".

b. In the permitted uses under Section 2.2, Section 2.3, Section 2.4.1, Section 2.5.2., in Section 2.7.4,

paragraph a.1., and in Section 5.8, paragraph a., **add** references to Appendices A and B for single family residential use, and Appendix A only for two-family or multi-family use

c. In Sections 2.3.1, 2.4.1 and 5.6, **remove** reference to Appendix B from paragraph a. as only single family dwellings are permitted in Open Space Residential Developments.

Yes

No

- Article 3. Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board to **add** "An Ordinance to Regulate and Control the Construction, Installation, Location and Repair of Partition Fences," also known as "Town of Greenville Fence Ordinance," as Appendix L of the Zoning Ordinances; **revise** definitions for Building and Structure in Section 1.4 of the Zoning Ordinances for consistency with the new Fence Ordinance; and **add** a new definition to Section 1.4 for Fence.

BUILDING. Any structure having a roof and intended for the shelter, housing or enclosure of persons, animals or materials. Any other structure more than eight feet in height shall be considered to be a building including, for example, a **stone, brick, or masonry** wall, satellite antenna, dish antenna, etc. but excluding, for example, a public utility pole, flagpole, etc.

STRUCTURE. Anything constructed or erected which requires location on the ground, including signs, **but excluding fences.** **Stone, brick or masonry** walls used as fences, the maximum height of which is less than four feet above the ground, are not included. **Regulations for fences are contained in Appendix L of this zoning ordinance.**

FENCE. A barrier erected upon, or immediately adjacent to a property line for the purpose of separating properties, or for screening, enclosing, and/or protecting the property within its perimeter. Reference Appendix L for the Town of Greenville Fence Ordinance which also regulates enclosures and privacy screens.

	Yes	No
Article 4.	Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the town zoning ordinance to add , as Section 3.8 of the General Regulations, new regulations for swimming pools, and add swimming pools to the definition of "Structure" in Section 1.4.	

	Yes	No
Article 5.	Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the town zoning ordinance to revise Appendix J, Floodplain Development Ordinance, to maintain compliance with the National Flood Insurance Program.	

	Yes	No
Article 6.	Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the town zoning ordinance to correct punctuation and wording in the definition of Manufactured Housing in Section 1.4, Definition of Terms, to clarify the definition.	

MANUFACTURED HOUSING. Any structure, transportable in one or more sections, which in the traveling mode is 8 body feet or more in width and 40 body feet or more in length or when erected on site is 600 square feet or more, and which is built on a permanent basis and connected to required utilities, which include plumbing, heating and electrical systems contained therein.

Yes	No
-----	----

Article 7. Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the town zoning ordinance to ~~revise~~ Section 2.7.4 Lot Requirements Downtown (D) District, paragraph a.1 so that it shall read (new text in **bold type**): "Residential uses in the Downtown District are exempt from the **minimum area** provisions of Appendix A, Minimum Lot Size Ordinance"

Yes

No

Article 8. Are you in favor of the adoption of Amendment No. 7 as proposed by the Planning Board for the town zoning ordinance to clarify the lot size calculations in Section A.3 Minimum Lot Size for Multi-Family Buildings, paragraphs a. and b. by **adding** text highlighted in bold:

a. For areas served by the Municipal Waste Treatment System, the lot size shall be a minimum of two acres for each building plus an additional two acres for each apartment or family living unit **beyond the first unit**, up to six apartments or family living units in a building.

b. For areas not served by the Municipal Waste Treatment System, the lot size shall be a minimum of four acres for each building plus an additional two acres for each apartment or family living unit **beyond the first unit**, up to six apartments or family living units maximum in a building.

Yes

No

Article 9. Are you in favor of the adoption of Amendment No. 8 as proposed by the Planning Board for the town zoning ordinance to correct typographical errors in the description of the district boundaries in Section 2.7.1 Downtown (D) District by changing references from "Map 4" to "Map 6."

- North along the western boundary of Lot 89, Tax Map 6.
- East along the northern boundary of Lots 89, Tax Map 6.

- South along the eastern boundary of Lot 89, Tax Map 6 to the northern boundary of Lot 90, Tax Map 6.
- East along the northern boundary of Lot 90, Tax Map 6 to the center of Route 31.
- North on Route 31 to the northern boundary of Lot 78, Tax Map 6.
- West along the northern boundary of Lot 78, Tax Map 6.
- West across Lot 77, Tax Map 6 in a line from the northwestern corner of Lot 78, Tax Map 6, to the eastern boundary of Lot 76, Tax Map 6.
- North, west, and south around the boundary of Lot 76, Tax Map 6, to the northern boundary of Lot 74, Tax Map 6.
- West across Lot 77, Tax Map 6 in a line from the northwestern corner of Lot 78, Tax Map 6, to the eastern boundary of Lot 76, Tax Map 6.
- North, west, and south around the boundary of Lot 76, Tax Map 6, to the northern boundary of Lot 74, Tax Map 6.
- West across Lot 73, Tax Map 6 from the northwestern corner of Lot 74 to the northeastern corner of Lot 72-1, Tax Map 6.
- Along the northern boundary of Lots 72-1, 72 and 71, Tax Map 6 to the intersection with Lot 69, Tax Map 6.
- Long the eastern boundaries of Lots 69, 68, 66, 63, Tax Map 6 to the Souhegan River.
- Up river along the Souhegan to the centerline of Baker Avenue.
- South along the centerline of Baker Avenue to the northern boundary of Lot 61, Tax Map 6.
- South and west along the southern boundaries of Lot 57-1, Tax Map 6 to the Souhegan River.
- Up River along the Souhegan to Mill Street.

Yes

No

Article 10. To see if the town will vote to raise and appropriate the sum as necessary to defray the town charges and make appropriations of the same as shown on the posted budget.

Total General Fund Operating Budget \$1,734,438
Recommended by the Board of Selectmen and the Budget Committee.

- Article 11. To see if the town will vote to raise and appropriate the sum of Three hundred eighteen thousand five hundred forty-five dollars (\$318,545) for the Sewer Department.
Recommended by the Board of Selectmen and Budget Committee.
- Article 12. To see if the town will vote to raise and appropriate the sum of One hundred ninety-five thousand one hundred fifty-four dollars (\$195,154) for the Water Department.
Recommended by the Board of Selectmen and the Budget Committee.
- Article 13. To see if the town will vote to raise and appropriate the sum of Thirty-nine thousand and 00/100 dollars (\$39,000.00) to purchase and equip a new police cruiser with fourteen

thousand eight hundred twenty dollars (\$14,820) coming from the Town of Temple and sixteen thousand dollars (\$16,000) coming from the Greenville Police Cruiser Expendable Trust Fund and the balance of eight thousand five hundred seventy dollars (\$8,570) to come from taxation. Recommended by the Board of Selectmen and Budget Committee.

- Article 14. To see if the town will vote to raise and appropriate the sum of Thirty-seven thousand six hundred eighty-eight dollars (\$37,688) for the purpose of reconstructing and paving town roads. *(This expense will be offset by the Highway Block Grant)* Recommended by the Board of Selectmen and Budget Committee.
- Article 15. To see if the town will vote to discontinue the Bath House Fund created in 1989 and the Recreational Facility Improvement Fund created in 1989. Said funds, with accumulated interest to date of withdrawal, are to be transferred to the town's general fund.
- Article 16. To see if the town will vote to discontinue the Revaluation Fund. Said funds, with accumulated interest to date of withdrawal, are to be transferred to the town's general fund.
- Article 17. To see if the town is in favor of changing the office of the tax collector from an elected office to an appointed office? If this article is approved, the office of the tax collector will be discontinued at the next annual town election, and will be replaced by an appointed tax collector, such appointment will be made by the selectmen. (Submitted by Petition)
- Article 18. To see if the town will vote to raise and appropriate the sum of Two thousand one hundred seventy-one dollars (\$2,171) to be added to the Pool Repairs/Improvement Expendable Trust Fund and to authorize the use of the 2006 fund balance for this purpose. *(The funds were collected by the Parks & Recreation through fees and sales during 2006).*

- Article 19. To see if the town will vote to raise and appropriate the sum of Two thousand dollars (\$2,000) for the purpose of improvements to the town field. Recommended by the Board of Selectmen and Budget Committee.
- Article 20. To see if the town will vote to raise and appropriate the sum of Sixteen thousand dollars (\$16,000) for repairs to fire station. Recommended by the Board of Selectmen and Budget Committee.
- Article 21. To see if the Town will vote to create an expendable trust fund under the provisions of RSA 31:19-a, to be known as the New Fire Station Fund, for the purpose of hiring architect, engineers, purchase of land, and construction of a new fire station and to raise and appropriate the sum of Twenty thousand dollars (\$20,000) for this fund and to further authorize the Board of Selectmen as agents to expend. Recommended by the Board of Selectmen and Budget Committee.
- Article 22. To see if the town will vote to authorize the Board of Selectmen to enter into a 10-year lease/purchase agreement for a 2007 pumper truck. The total cost of the lease/purchase agreement including interest and principal will be \$261,580 and the agreement will include a non-appropriation clause. The payments on the lease/purchase will begin in 2008 and will be appropriated annually from the Fire Department operating budget. The annual payment will be \$26,156.80 for the term of the lease/purchase. Recommended by the Board of Selectmen and Budget Committee.
- Article 23. To see if the town will vote to raise and appropriate the sum of Ninety thousand dollars (\$90,000) for the purpose of hiring an architect to prepare the final plans for renovations to the town hall. Recommended by the Board of Selectmen and Budget Committee.

Article 24. To see if the town will vote to deposit 20% of the revenues collected pursuant to RSA 79-A (the land use change tax) in the conservation fund in accordance with RSA 36-A:5,III as authorized by RSA 79-A:25,II.

Article 25. To see if the town will go on record in support of effective actions by the President and the Congress to address the issue of climate change which is increasingly harmful to the environment and economy of New Hampshire and to the future well being of the people of Greenville, NH. These actions include: 1. Establishment of a national program requiring reduction of U.S. greenhouse gas omissions while protecting the U.S. economy. 2. Creation of a major national research initiative to foster rapid development of sustainable energy technologies thereby stimulating new jobs and investment. In addition, the town of Greenville encourages New Hampshire citizens to work for omission reductions within their communities, and we ask our Selectmen to consider the appointment of a voluntary energy committee to recommend local steps to save energy and reduce omissions. (Submitted by Petition)

Given under our hands and seal this 7th day of February 2007.

Board of Selectmen

Michael D. Lamarre

Debbie Bouley

SELECTMEN'S NARRATIVE

The Selectmen's office would like to recognize David Dow for his commitment to the Town of Greenville. David's dedication to the Town of Greenville and residents will be missed.

While in Office for one-year of his term, David implemented many changes with the Town offices to open the doors of better communication and a more comfortable work area and enhance staff safety. He was instrumental in looking for savings in the use of our utilities. Until his illness, David created and managed the Town web site at: www.greenvillenh.org.

The Town Clock has been repaired and is now keeping proper time. It requires an occasional tweak and cleaning as it is getting old. – This was David's grandest moment!

A heartfelt thank you goes to Marshall Buttrick for the coordination of the Souhegan River sign that was installed at the green bridge off Route 31 and Wilton Road.

The doors to the Library and Town Clerk's Office have been repaired of cracks and refinished.

Panic buttons were installed into the Town Clerks Office, Selectmen's office and the Meeting room for use in an emergency.

The contract with Woodard & Curran, who manage the Water and Wastewater Treatment Plants have been renewed, with a pull out clause should our needs change.

The initial Town Hall Study has been completed. Mr. & Mrs. Monahan have met with the Selectmen and interested residents to review their findings and recommendations for use of the building. Drawings are available for review.

An Inflow and Infiltration (I & I) study has been conducted to pinpoint areas in town that have contributed to a higher than normal discharge of water into the Wastewater Treatment Plant. This high flow increases the costs of treatment. The first phase of the study told us what roads in town were contributing to the higher than normal flow. The second phase was to camera the sewer lines on the roads to detect any damages to the pipes. The third phase is to do individual home review for a proper tie-in to the

system. This phase has not been completed due to non-compliance with home owners.

We would like to thank Chief McTague and the Highway Staff for the cleanup and sale of the materials, vehicles and tires that cluttered the Highway property.

The Budget Committee was formed this year to assist with the budgeting process. We wish to thank each one of you for your time and dedication to review the town's finances and appreciate your recommendations.

A Hazardous Mitigation Committee was formed to review and create the Town's policy should we experience any form of potential disaster. We appreciate the hard work and effort this Committee continues to put forth.

Christine Lavery been hired as our Human Services Director to manage the town welfare needs and review of procedures. Chris's knowledge and contacts within various State and Government agencies will enable her to maintain the town's welfare budget and assist residents in finding solutions to their financial needs. Christine also works with Peterborough and Bennington.

The newest project – still on-going with working out problems, is the installation of a new phone service that could potentially save the town a substantial amount of money. Currently we are working out many bugs. This new system allows intercom interaction between the various departments. Thank you to all the employees for your patience while this system is worked out.

We would like to recognize Linda Langille who "manages" the Selectmen. Linda keeps us on track and grounded. We appreciate all her efforts and commitment.

We are in need of volunteers to serve on three committees:

- 1) Fire Station Building Review - A safety inspection revealed many problems with the building that needs to be addressed.
- 2) Holiday Committee - To coordinate holiday celebrations, parades, gatherings and the upcoming centennial celebration.
- 3) Street lighting – to review total costs and whether more or less lights are necessary.

Selectmen's meetings are held in the meeting room the second and fourth Wednesday at 7:00 pm.

Respectfully submitted,

Michael Lamarre, Chairman
Debbie Bouley

TOWN HALL FEASIBILITY STUDY

Summary Report

Below follows a summary report of the plan submitted by Richard Monahan Architects, AIA. A complete report is available at the Town Offices.

Proposed Renovation Changes to Basement

Handicap parking will be adjacent to the new weather entrance on the south side. The accessible route will lead to the elevator and new handicap bathrooms. There will be two egress exits linked by a corridor, one to the outside, the other up the stairs and exit at the first floor. A new fire stair will be constructed from the basement to the auditorium, providing two exits from the auditorium.

The Selectmen's Office, Town Administrator's Office, offices for the Treasurer, Building Inspector, Emergency Management, a small meeting room with a kitchenette, and a larger meeting room, new men's and women's rooms, the elevator, elevator machine room and boiler room will be accommodated at this level. There will be considerable demolition including the cells and the base of the vault. Windows and door openings will be restored.

Proposed Renovation Changes to First Floor

The north side entrance is the dominate view and entrance side of the Town Hall and Library. The 1990s renovations made the town offices and the library accessible from street parking and the sidewalk, by raising the grade to the floor level. The entrance doors were sensitively redesigned to make on leaf of each door 3'-0" and the leaf smaller. A handicap bathroom was added to the library and the existing bathroom in the front stair hall was made more accessible.

The Library is a strong presence and the Clerk's Office is a busy hub for the town. Keeping these icons of the town's identity and service at this level is important. In order to expand both the Library and to give more space to the Clerk's Office, it was decided to move the Selectmen's Office to the basement. The Library can expand into the Selectmen's Office. Removing the two vaults will give more space to the Clerk's Office.

The new Lulu lift in the Clerk's waiting space is at the entrance to the present Clerk's Office. The Clerk's counter and desk space will be

increased. A wall, 7'-0" height will be built with window, with divided lights, and roll down doors will separate and close the Clerk's Office from the public when not open.

Proposed Renovations to the Second Floor

There is consensus that something is missing in the town with the auditorium not functioning as the towns heart as people remember. People want this PLACE back. The new exit stairs, providing two exits, and a sprinkler system satisfies the code requirements. The space below the balcony will be used to accommodate the new elevator, accessible men's and women's lavatories, a catering kitchen and storage. New lighting will be provided for the auditorium ceiling and two light stations for stage productions. The windows are in good condition and are operable. New roof top (additional) heating and cooling systems are proposed for the auditorium. The storm windows will increase the energy efficiency.

Proposed Renovation to the Balcony Level

The balcony by code is part of the second floor. The visual connection between the balcony and the auditorium needs to be maintained. There should be no public access to this level. All lavatory facilities will be removed from this floor. The projection room will be reduced in size to accommodate the top of the elevator hoistway. It will function as stage manager space and for movie projection. Residual space will be for use by the Library and Historical Society.

Proposed Renovations and Maintenance to the Exterior

The roofing was recently repaired with a rubber membrane. Salt has deteriorated the mortar joints where the sidewalk meets the building on the west side. These need to be repointed and determine if original mortar was lime mortar or portland cement. Moisture is penetrating the west end of the basement level where a previous door was filled in. The existing windows on the north and west side are in good repair. New paint and storm windows and screens are needed for all the windows at the second floor and balcony level. Several of the basement windows on the south side need to be repaired, windows need to replace doors, doors need to be designed and built similar to those at the Library – one leaf large enough for handicap accessibility. Refer to the exterior elevation drawings.

Window openings and windows could be restored on the north elevation. Window openings and window wells could restore light to basement offices. Refer to the exterior elevation drawings.

The Proposed Budget

The approximate 1.2 million dollar budget reflects the demolition and proposed renovations, mechanical, electrical, emergency systems, sprinkler, exterior window and door repair, and the costs of an architect and contractor overhead. The cost is based on the complete project being executed at the same time. To phase the project would in the end cost more money for the town.

Recommendations

If the town decides to do the renovation, it is recommended that a building committee be created and construction drawings be completed, with an agreed upon plan. A construction management company should be hired to complete the project. The Historical Society should list the Town Hall on the State Inventory of Historic Places (See appendix to list a property), this could enable the town to apply for grant money through the State Moosehead grant program as well as grants from the New Hampshire Humanities and Arts Councils. This is a fine building and renovations should be sympathetic to the quality of the building (see appendix to see technical information briefs by the National Park Service).

TOWN CLERK

Motor Vehicles	\$255,716.66
Dog Licenses	1,038.50
Marriages Licenses	570.00
Certified Copies	1,808.00
Filing fees	4.00
Municipal Agent	7,047.00
UCC, Checklist, Reprints	<u>745.00</u>
Remitted to Treasurer	\$266,929.16

On March 6, 2006 the Town of Greenville Motor Vehicles went on line. It proved to be a very difficult time for this office and our citizens, waiting for hours to register their vehicles. There were many glitches in both systems and all registrations had to match exactly with the title on file with the State. After many months of frustrations the system is working very well and the office is back to normal.

Debra Reardon and Bernadette Desmarais have joined our staff as part time assistants. Deb is now the Deputy Town Clerk. Both girls alternate days each week and are both very knowledgeable and great assets to the Town.

Our Office is looking great with painting and a new floor. The lights were not changed pending the vote on the renovation of the Town Hall. It is very light and clean and I would like to thank the voters for passing the article at meeting.

We are now able to certify Divorce Decrees. They are \$12.00 a copy. This began on January 1, 2007

I want to thank all the citizens of Greenville for their support and patience.

Respectfully submitted
Kathleen Valliere
Town Clerk

1997	Yvonne Vaillancourt
2002	Jeanne Comolli
2006	Armand Morneau

Anyone with information regarding past recipients please contact the Town Office.

TEMPLE-GREENVILLE POLICE

It is hard to believe that we are almost two years into The Temple-Greenville Police Department merger. Overall the combined department is working very well. The officers have put a tremendous amount of effort into patrolling, along with a positive commitment to improve both towns. This is reflected in the crime rate going down in Temple and Greenville. I am pleased that O.H.R.V. and DWI cases have declined. One of the primary goals of our department is to attack the drug and alcohol issues in both towns. We have had numerous arrests, prosecutions, and convictions for drug and alcohol related crimes.

In May of 2006 I started the renovation of a new police station on Main Street in Greenville. This new station solves many of our safety issues, along with logistics problems. It allows us to properly book arrestees, keep juveniles separated, and provide security for our officers and the general public. By having the station on Main Street we are much more visible and easier to find. The renovations and improvements will be a continuing project as we do a little each year. I would like to thank the citizens of Temple and Greenville for attending our open house.

The Joint Board of Selectmen and I attend a monthly meeting to insure our budget stays on track. The cooperation between the board and the police department has been excellent. Thank you.

Respectfully Submitted,
James H. McTague
Chief of Police

ANIMAL CONTROL

Below is a list of some of the calls that Mike and I were called to handle. Dog owners please take note ALL dogs over the age of 4 months old MUST be licensed by April 30 each year, RSA 466:1. The dog tag should be placed around the dogs neck, not only will it help us return your pet if it gets lost, its also the law. I would also like to remind all dog owners to please keep their dogs on a leash or a lead when not on your property. This will promote respect and show consideration for your neighbors as well as keeping your pet safe.

Stray dogs	20
Dog complaints	13
Dogs taken to shelter or adopted	4
Animals killed by auto	2
Loose horse complaints	0
Other loose barnyard animals	4
Farm inspections	0
Wild animal complaints	7
Rabies incidents	3

For animal control responses please dial 878-3474 or 878-2324.

Respectfully submitted,
Peter A. Clegg
Animal Control Officer

HIGHWAY DEPARTMENT

The past winter was easier on the equipments and employees than the previous year. The residents were very helpful in the removal of their cars enabling our job to be done more efficiently. Thank you!

Thanks also to the Police Department for their assistance with the winter snow removal.

In our spare time the highway garage was insulated inside. This should help with the fuel costs.

This past spring a massive clean up of the highway yard and garage was accomplished. You may have seen the list of unneeded items for sale in the local paper. Special thanks to Chief McTague for helping organize the highway area on his days off.

The employees set-up the election booths and removed them for the town elections.

In the spring, many of the monuments were up-righted in the Pleasant Street. There is more needed work to be done to the stones.

Our department and town survived the spring deluge of rain with little damage. We prevented problems with employees checking roads and cleaning of drains to keep up with the rain. At time this had to be on a 24 hour basis. We helped the Fire Department with filling sand bags, distributing them and the removal after storms.

Memorial Day, we had the town put on it's best face with the streets swept, lawns mowed, and crosswalks repainted.

We helped with the opening of the swimming pool for all to enjoy this beautiful summer.

Time has been spent with the new developers to assure their projects are completed within the town regulations and desires. The new roads built in these projects must be according to town specs.

The following roads were upgraded:

- High Street was widened by paving the shoulder.
- School Street had the corner widened and the street was paved.
- Richardson Road was re-ditched.

- Nutting Hill Road had trees and brush removed, ledge was jack-hammered to make the road safer.
- Adam Hill Road had new culverts and storm drains added. This will solve the problem where the road flooded in bad rains. Existing culverts were replaced with new ones. Cutting of trees and brush was done to open up the road for safety and let the sunshine in during the winter for the snow to melt sooner. The road was ditched and should be paved by this publication.
- Ditching was done at the ball field to prevent the flooding problem. Special thanks to Roland Vaillancourt for the removal of the "big" tree.

The mowing was a continuous job with the great weather. The grass just kept growing. Our parks, cemeteries, and common areas were well maintained. We were able to save money on the mowing by hiring a part-time person who offered to do the mowing at a low rate. This also made time available for regular highway personnel to accomplish other projects.

Within a few weeks, the new 6-wheeler dump truck with plow gear and sander should be delivered.

Thank you, Linda and Elisa "smiley" for all the help this year. Our department and town couldn't do it without you.

The Board of Selectmen are very understanding with the needs of the Highway Department and the town is fortunate to have their expertise.

Summer is almost over and the nice weather we have all enjoyed will soon be gone. We are all hoping for an easy winter.

The Highway Department assisted Wright & Pierce with the I & I study for the sewer system. Because Highway Department part-time personnel volunteered to switch their hours to accomplish this, the town was able to save considerable money on the study.

Respectfully submitted,
Dennis Heywood
Road Agent

FIRE DEPARTMENT

In 2006, the Greenville Fire Department responded to a total of 255 calls. This is up 49 calls from last year. These calls ranged from building fires, alarm activations, motor vehicle accidents, hazardous material incidents, medical emergencies, motor vehicle fires, brush fires, illegal burns and mutual aid responses.

I would like to thank the members of the community for their continued support and their efforts for fire prevention and fire education to make our community a better and safer place to live and work. The department and its members look forward to providing the best possible service to you in the upcoming year.

In closing, I would like to thank all of the volunteer members of the Greenville Fire and Rescue Department for their continued service and all of their extraordinary efforts and outstanding performance.

The following is a list of the current Greenville Fire Rescue Roster:

FOREST FIRE WARDEN and STATE FOREST RANGER

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdfi.org.

Fire activity was very high during the first several weeks of the 2006 fire season, with red-flag conditions issued by the National Weather Service and extreme fire danger in many sections of the state. The largest forest fire during this period occurred in late April and burned 98 acres. The extremely dry conditions in spring resulted in over twice the amount of acreage burned than in all of 2005. Our statewide system of fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Fires in the wildland urban interface damaged 6 structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

ONLY YOU CAN PREVENT WILDLAND FIRE

EMERGENCY MANAGEMENT

The Emergency Management office has been busy this year once again. The year started out with a lot of flooding in May and again in October in New Hampshire which opened the office sometimes about 4 days in a row to monitor the flood stages and assisting other town departments. This year the Highway and Fire Department had to sandbag numerous areas of the town to minimize damages. This office helped to apply to the State of New Hampshire for reimbursement funds, which came back over \$2,000. We continued being busy with meetings concerning Hazardous Mitigation, Department Head meetings, Souhegan River Watershed Flood control, Dam Emergency Action plan, Public Health Preparedness and Pandemic meetings at Monadnock Community Hospital and with the Safety Committee. The Office of Emergency Management is still without a command center to work out of because of the restrictions in the town hall, so most of the time personal cell phones are being used to keep in touch with other agencies and our town personnel.

We continue to work on the Emergency Management plan with the help of Jo Beaudoin from New Hampshire Office of Emergency Management.

I would like to thank the Selectmen for coming out in the October flood and working side by side with the Highway Department, Fire Department and Emergency Management. Even though they had problems at home with flooding themselves they took the time to come and help out as much as they could. I would also like to thank the Highway and Fire Department in doing a tremendous job this year in protecting our community in emergency situations. There is plenty that still could be done during these times but we have not volunteers that are available, so if anyone is interested in joining either the Emergency Management Office or Fire Department please do not hesitate. Any help would be greatly appreciated.

Respectfully submitted,
Marcel Bernier
Emergency Management Director

PLANNING BOARD

During 2006 the Planning Board received one application for Site Plan Review, and three applications for Subdivision.

Pitcherville Sand & Gravel had received conditional approval for a site plan for commercial development on Lots 1-50 and 1-50A in 2005, but the approval was revoked after NH DES denied a permit application. In March 2006, Pitcherville resubmitted their application, and were granted Planning Board approval for the site plan in April. The plan was signed in June, after all permits were granted and conditions of approval were met.

Charles and Linda Buttrick were granted approval in August for a residential subdivision to divide one new lot out of Lot 3-35 on Adams Hill Road.

Brown Development Corporation, owners of the former Greenville Wildlife Park property, submitted an application lot consolidation of Lots 1-44 and 1-44C and re-subdivision into four new lots. The application was granted conditional approval in July; after fulfilling all conditions, the plans were signed in October.

The Board held a design review in February for a proposed cluster subdivision by Landmark Development and Planning on Lot 1-16, owned by Alexander Taft, and Lots 1-17 and 1-20A owned by Hermel Pelletier. A formal application for subdivision was filed for this project in July. This was the Board's first proposal submitted under the Cluster Development Ordinance, and it proved to be quite a challenge. The Board spent a great deal of time discussing the ordinance and evaluating the proposal which was continued into 2007.

One benefit of the cluster development project was the recognition that the Cluster Development Ordinance was urgently in need of revision. The Board was fortunate to receive assistance from Mark Archambault of the Nashua River Watershed Association (NRWA) to write a new Open Space Residential Development Ordinance (OSRD) to replace the Cluster Ordinance. The NRWA was able to provide free assistance under a grant to towns within the watershed to develop ordinances to protect water resources. This new OSRD, if approved at Town elections in 2007, will provide an option for residential development of large properties that maximizes the preservation of open space within the town. Mr. Archambault will also be assisting in the development of a wetlands ordinance in 2007.

In addition to the OSRD, the Board spent many hours working on other new ordinances and zoning amendments. New ordinances regulating fences and swimming pools will be presented to the voters in 2007, as well as many "housekeeping" amendments to the existing ordinances.

The Board met with numerous residents, realtors, and other individuals for informal discussion concerning the town's ordinances and regulations.

The Board encourages the public to attend Planning Board business meetings on the second and fourth Thursday of each month, and working sessions on the first Thursday of each month (as needed). All meetings are held in the Town Hall Meeting Room on Chamberlin Street at 7:00 p.m. The agenda is posted in the Selectman's Office and the Post Office and on the community cable channel.

Three new alternate members were appointed in 2006, including an alternate for the ex-officio representative from the Board of Selectmen. One regular member, David Orgaz, resigned this year, and the Board thanks him for his years of service. Former alternate, Jonathan Bouley, was appointed as a full member to fill the vacancy. There is still an opening for one alternate, and vacancies can occur at any time. In addition, citizen participation is welcome for continuing work on projects such as the Capital Improvements Program, Master Plan, and zoning revisions. Any citizen interested in Planning Board work, either membership or project work, should contact the Board of Selectmen or a Planning Board member for more information.

Respectfully submitted,

Ted de Winter, Chairman
Greg Rillings, Vice Chairman
Mike Guay, Member
Jonathan Bouley, Member
Mike Lamarre, Ex-officio representative from the Board of Selectmen
Priscilla Gauvin, Alternate Member
Debbie Bouley, Alternate ex-officio representative from the Board of Selectmen
Patricia Nelson, Planning Board Secretary and Administrator

ZONING BOARD OF ADJUSTMENT

The Zoning Board of Adjustments had a busy summer and fall this year. We heard several cases involving the permitting of apartments and a few regarding fencing. We also heard a couple of cases regarding the interpretation of the Town's cluster development ordinance. We have tried to exercise our judicial mandate fairly and legally in hopes that we can balance the community's needs and the individual's private property rights. I appreciate the time and commitment of all who attended the zoning board's public hearings. Thank you especially to the few who showed much self-restraint in the face of very personal proceedings.

Respectfully,
Zebadiah Kellogg-Roe, Chairman

PARKS AND RECREATION

Because the town passed warrant article 17, we brought the Ida F. Taft Memorial Park up to acceptable standards. It is now a Park we can be very proud of. Specifically, with regard to the tennis/basketball courts, we fixed the fencing, repaired the tennis net pole & holes and sealed all the cracks. We replaced the swings and put sand underneath them. Concerning the baseball field, we fixed the fencing, replaced the benches, raked, loamed & seeded the field, removed the brush behind the fence, fixed the drainage problem and replaced the scoreboard with a brand new sign. Warrant article 19 enabled us to remove the old school playground equipment and replace it with new equipment, making the area much safer.

We continued to improve our pool through articles 17 and 18. We installed a new water measurement meter, chemical bucket/chlorine feeder, hot water heater, locks, sensor lights and water shutoff valves. We also completely re-painted the pool house (with the help of Mascenic H.S. students and others), spread pea stone around the front, added two picnic tables, a ping-pong table, additional games, a bench and a bike rack. Thank you to all those who put in many volunteer hours to accomplish all of the above. Please stop by and see how great the pool house looks!

Our swim team continues to excel and represent our town admirably. Fifty-one children took swim lessons, we introduced an Adult Swim Night and we supported the Beautification Committee for its first Block Party in the Park. Finally, our pool usage continued to increase, with an estimated 21% increase in pool usage. We attribute this to expanded coverage and fewer rain days. We feel we can do more. We're looking at water aerobics, a jogging path and an ice rink. We have also instituted a repair & maintenance program to ensure we maintain the Park, now that it is in good shape. We are also working hard to squeeze additional years out of our pool, but it will need replacement before too long.

Thank you again for your financial support and a special thank you to the many volunteers who donated their time to accomplish our many improvements. A special thanks goes to Nancy Bartecchi, who served on the committee for the last four years. We miss you!

CONSERVATION COMMISSION

The Conservation Commission met on a regular basis during the past year. We had the annual roadside clean-up day in the spring with assistance from the Scouts and volunteers. Department of Environmental Services wetland permit applications were reviewed. We submitted comments when we thought it appropriate. We continue to monitor violations of wetland permits and investigate potential wetland violations. Markers identifying the town forest as conservation property were placed around the perimeter of the property.

We have included two warrant articles for the town's consideration this year. The first article allows for the creation of a conservation fund. The second article requests that a portion of the land use change tax be applied to the conservation fund.

We are working with the Nashua Watershed Association in the preparation of a proposed wetlands ordinance. Once drafted, it will be presented to the planning board for their review and possible consideration by the town next year.

FOURTH OF JULY

To the following business, Lamarre Concrete, Sea Change, Approved Color, and Alden Engineer, your continued support of the Fourth of July is greatly appreciated. Your donations and the raffle sales help to offset the expenses associated with the event and to replace monies expended. This allows for a consistent balance in the account for us to work with.

Our thanks go to Chief Larry Legere and all Fire personnel for their assistance, Chief McTague and all Police Officers that participated in crowd control, and Souhegan Valley Ambulance for having their personnel on site for any emergencies.

Telstar once again provided the town with a beautiful fire display, and the children bike parade and the floats were enjoyed by all.

Respectfully submitted,
Brenda Bergeron

BEAUTIFICATION COMMITTEE

The Greenville Beautification Committee's objective is to foster pride in our community by undertaking projects that make the town a pleasing place in which to live and work. The projects are supported through fund-raising events and many voluntary contributions from Greenville citizens and businesses. Between five and ten community members attend the regularly scheduled meetings on the second Tuesday of each month at 7:00 p.m. at Heart's Desire Café. New members, new ideas and new contributions are always welcome.

The most ambitious project for 2006 was the planting of perennials and annuals in the weed strewn pathways along Main Street and Old Wilton Road, at the intersection of Mill and Chamberlin Streets, at the intersection of Main and Pleasant Streets, and at the intersection of Temple Street and Dunster Avenue. The Beautification Committee was responsible for the plantings at the Town Hall and in the bridge boxes on Main Street as well. The project was most satisfying for several reasons: 1) the tremendous community support from nearly 100 individuals and businesses who contributed everything from money and plants to hours of planning, preparing, planting and tending, 2) the positive outpouring of encouragement and appreciation for the effort and 3) the "coming together" of people from all parts of town for the purpose of promoting Greenville's assets. We believe, too, that many people were encouraged to do things around their own homes as a result of the broader community effort. Thank you, one and all.

A second successful venture was the planting of a 12 foot tall nursery grown balsam tree on the Town Hall lawn. The Beautification Committee had been working towards its purchase for four years. We finally had enough money to purchase the tree, to have it properly installed and guaranteed for two years.

A third activity sponsored by the Beautification Committee was the September Block Party held at the Ida Taft Memorial Field. It was a fundraiser that attracted 100 or more townspeople on a beautiful Saturday afternoon, but, most importantly, it was an opportunity for people of all ages to meet and play. The committee hopes to have the energy to sponsor another Block Party in September 2007.

Our final activity for 2006 was the decorating of the Town Hall for the holiday season and the tree lighting ceremony whose success was contributed to by the Chamberlin Library, the Greenville Fire Department,

chorus members from Mascenic High School and volunteers who provided the refreshments.

Future plans include a 135th birthday celebration, planters, additional trash containers in the downtown area, graffiti removal, planning for a riverside park and, of course, continued efforts to maintain and enhance the plantings from this past year's efforts. Thanks to everyone who takes pride in our town.

Respectfully submitted,
Dick Bickford
Jim Lambert
Co-chairs of the Greenville Beautification Committee

CHAMBERLIN PUBLIC LIBRARY

In the past year, Chamberlin Free Public Library attained a level of service and technology that is unusual for a library of our size. The library circulated nearly 15,000 items and served 11,297 patrons representing a ratio of 45% children and young adults to 55% adults. Sixty-eight new patrons were issued library cards. The number of interlibrary loans processed increased to 1029. We added 669 items to our collection, broken down as follows:

222 Adult Fiction Books, 129 Adult Nonfiction Books, 49 Young Adult Fiction Books, 59 Young Adult Nonfiction Books, 87 Children's Books, 45 Audio Books, 47 Large Print Books, 31 Videos.

The library introduced a monthly adult reading group spearheaded by Brenda Cassidy, Diane Steele and Connie Cooke. We thank them for their outstanding efforts in this and other successful library programs.

2006 marked the establishment of our permanent web site at www.chamberlinlibrary.org. The site provides information about library activities, contacts, new acquisitions, special projects, links to electronic resources offered by the library and online forms to request materials from our library or through an interlibrary loan. Most importantly, we now have our entire library catalog online. The catalog is linked in real time to our circulation system so patrons will immediately know if a particular item is available. Additionally, library materials can be renewed or reserved from within the online catalog. We are presently adding public domain electronic books in Adobe PDF format which can be downloaded directly from our catalog and read on your home computer. These electronic books have no expiration date and are not returned to the library.

In order to fulfill the increased demand for high-speed Internet access and office productivity (up 18% this year), we have added two fully wireless, wide screen laptop computers.

We have had to say farewell to one of our trustees this year. Leslie McGourty has moved on in her career and we wish her well. Thank you for your dedicated service to the library. In her place, we are very pleased to welcome Jean Lambert as a member of the board. She has a long association with the town, the library and the school district and will be an invaluable member.

Respectfully submitted,
Board of Trustees

SOUHEGAN VALLEY AMBULANCE SERVICE

SVAS has responded to over 481 emergency calls this year to make sure our area residents receive the highest level of quality care that we are able to deliver. Along with responding to emergency calls, our EMT's have provided many community services in 2006. We have volunteered time and expertise at the following events: Memorial Day parades, Greenville's 3rd of July celebration as well as the Bike Parade, the New Ipswich Children's Fair and the Praise Fest to name a few. In addition, we periodically offer CPR and First Aid courses at the SVAS building.

Due to increasing call volume and the ongoing burdens we face in this day and age it becomes more difficult to maintain volunteers. With the added procedures, trainings and health concerns it is a demanding job to be a volunteer. With this in mind the Board of Directors of Souhegan Valley Ambulance Service would like to take this opportunity to give a special thanks to all its members and their families and to all the people who assist us in providing emergency care to the community. The dedication of our attendants and the sacrifices of their families add much to the quality of lives here in New Ipswich and Greenville

Town Representatives to the Board of Directors

MILFORD AREA MEDIATION PROGRAM

Milford Area Mediation Program, a service of the Town of Milford, has been providing conflict resolution services within western Hillsborough County since 1995. Family Mediation is a free service to residents living in contributing towns. Topics typically addressed at family mediation include: difficult/ challenging communication, family arguments & disagreements, and high-risk activities. Mediation empowers families to develop effective communication skills, while discovering peaceful resolution to disputes and providing individuals the opportunity to understand consequences for certain activities/ behaviors. Milford Area Mediation Program also provides free comprehensive referral services for families.

The Mediation Program has steadily increased the number of clients over the past several years. From January 1, 2006 through December 15, 2006, Milford Area Mediation Program provided mediation services to 113 families (an increase of approximately 65% from 2005). The following chart demonstrates the number of families assisted through the Mediation Program:

	Total Number of Families	
	2005	2006
Contributing Towns:		
Greenfield	0	1
Greenville	0	2
Milford	34	40
New Ipswich	1	4
Temple	2	3
Wilton	5	11
	42	61
Covered Towns:		
Antrim	3	3
Francestown	3	5

Hancock	0	3
Mason	1	1
Mont Vernon	1	6
New Boston	0	1
Peterborough	2	4
	10	23
Other Towns:¹		
Amherst	5	8
Derry	0	2
Hollis	5	5
Manchester	0	5
Nashua	5	9
(unaccounted towns)	2	0
	17	29
TOTALS:	69	113

Community Need:

The Mediation Program serves to reduce conflict within families and prevent behavioral risk factors that lead to juvenile court involvement. In 2003, there were 1,817 delinquency and 362 status offense petitions filed in Hillsborough County (New Hampshire Supreme Court, Administration Office, 2005) out of an approximate juvenile population of 94,500 (Office of Juvenile Justice and Delinquency Prevention, 2003). With limited availability for resources, families often utilize law enforcement as a means to resolve issues. The Mediation Program better assists families during phases of difficulty by offering a process that guides families through the communication of their values and expectations, as well as responsibility and consequences.

Status offenses and minor delinquency are concerns addressed in parent-child mediation. Typical status offenses and minor delinquency involving New Hampshire adolescents include: binge alcohol consumption (11%),

¹ These towns are not within the geographical area served for family mediation. Families may be serviced because primary residency for a minor child is in a contributing or covered town.

recreational drug usage (14%), and high school dropout/ no GED (8%).*
Milford Area Mediation Program grants participating communities quality services at a reduced cost; free mediation and referral services for towns in western Hillsborough County are only available through Milford Area Mediation Program.

Highlights:

In 2006, Milford Area Mediation Program re-initiated additional community mediation services: Marital Mediation and Community Mediation Training. Marital Mediation is an alternative service to litigation (court involvement) regarding divorce and other legal issues affecting the dissolution of a relationship. This Mediation service is offered at minimal cost to participants (based on financial capability). *This service produced revenues of approximately 7.5% for 2006.* Community Mediation Training includes training area citizens as volunteer family mediators, and peer mediation training at schools. During 2006, the Mediation Program provided internship opportunities to 2 college students (New Hampshire Community Technical College and Woodbury College in Vermont).

The Mediation Program operates with one part-time staff. Milford Area Mediation Program is able to function productively due to the generous commitment of community volunteers. During 2006, the Mediation Program marketed and advertised training for volunteer family mediators (the first training offered since 1999). The training began in April 2006 and ended in May 2006 with Judge Martha Crocker (Milford District Court) presiding over the Oath of Confidentiality ceremony. *Six new volunteer mediators were added to Milford Area Mediation Program; there are now over 20 community members who volunteer at the Mediation Program.* In order to meet the increasing need for services within a large geographical area (14 towns), Milford Area Mediation Program continued to seek out

the assistance of community volunteers, and preparations have been made for another volunteer family mediation training (2007).

Milford Area Mediation Program engaged in an aggressive marketing campaign during 2006. Community outreach included displaying posters and brochures at schools, town offices, and libraries, as well as supplying law enforcement with informational cards to provide families. *As a direct result of this marketing campaign, self-referrals to the Mediation Program increased by over 500% (21 self-referrals in 2006 compared to 3 self-referrals in 2005).* Milford Area Mediation Program's website was completely refurbished during 2006, and now includes specific information about services and downloads for documents.

Milford Area Mediation Program has had a busy and productive year. The goal continues to be to serving more residents through mediation and referrals to secondary agencies. To learn more about Mediation or volunteer family mediators, contact Milford Area Mediation Program:

phone 672-2711
email: mdelaney@milford.nh.gov
web site: www.milfordnh.info/mediation/Mediation.htm.

Respectfully submitted,
May Delaney, Program Manager

* Statistics are specific to New Hampshire and derive from the Kids Count Databook, Office of Juvenile Justice and Delinquency Prevention, 2006.

HOME HEALTHCARE, HOSPICE & COMMUNITY SERVICES

In 2006, Home Healthcare, Hospice and Community Services (HCS) continued to provide home care and community services to the residents of Greenville. The following information represents HCS's activities in your community over the past twelve months.

Service Report

Services Offered	Services Provided
Nursing	105 visits
Physical Therapy	81 visits
Occupational Therapy	3 visits
Medical Social Work	5 visits
Home & Community Based Care*	704 visits
Home Health Aide	24 visits
Homemaker	704 hours
Child Health & Prenatal Care	40 hours
Health Promotion Clinics	12 clinics

Total unduplicated residents served: 68

*Home and Community Based Care is a Medicaid program which offers extended home care services to individuals who are in need of nursing home level care but can be maintained at home for a lower cost.

Prenatal and well child care, hospice services and regularly scheduled "Nurse Is In" clinics are also available to residents. Town funding partially supports these services.

Financial Report

The actual cost of all services provided in 2006 with all funding sources is projected to be \$90,671. These services have been supported to the greatest extent possible by Medicare, Medicaid, other insurances, grants and patient fees. Services that were not covered by other funding have been supported by your town.

For 2007, we recommend an appropriation of \$7,500 to continue to be available for home care services in Greenville. Thank you for your consideration.

WASTEWATER TREATMENT FACILITY

Woodard & Curran provided complete Operations and Maintenance of the Wastewater Treatment Facility, two pump stations, the collection system and served as the Industrial Pretreatment Program Manager. The Treatment Facility has continued to achieve a 95+% removal for both BOD (biochemical oxygen demand) and TSS (total suspended solids) on the effluent discharge to the Souhegan River.

STAFFING & TRAINING

The Wastewater and Water systems are staffed jointly with 3 personnel. The system operators are fully licensed by the State and are current with EPA, NHDES and OSHA operating guidelines and regulatory reporting requirements.

Note: Additional personnel are utilized when needed and are supplied by Woodard & Curran at no additional cost to the Town. Such personnel include licensed electricians, pump and instrument experts, process control technical experts and computer technicians. Back-up, licensed operators are also provided for vacation, holiday and sick day coverage.

Woodard & Curran has taken a proactive approach for equipment repairs, both routine and capital and has implemented numerous operating procedures allowing for an optimized treatment process. Training was provided for all system operators on facility operations, regulatory reporting, administrative functions and safety. The following items highlight the year's activities beyond routine.

In February an internal safety inspection of the treatment facility was conducted by Woodard & Curran's Health & Safety Director. Woodard & Curran has an extensive and expansive health and safety program that is maintained to OSHA safety standards. Results of this inspection allowed minor deficiencies to be identified and were corrected within one week. Accordingly, we maintained 100 % compliance with OSHA, EPA and NH DES safety standards and guidelines.

SYSTEM OPERATIONS

The NH DES invited Woodard & Curran to give a presentation at their Franklin, NH Training Facility for other NH communities. The presentation highlighted emergency procedures we implemented in Greenville for the prevention of discharge violations during periods of abnormally high flows;

typically during periods of heavy rains and snow melt. Please contact the department for further details.

A NH DES compliance inspection was conducted by the State in October-2006 resulting in two minor items/deficiencies that were corrected by Woodard & Curran. Additionally, the site specific Hazardous Chemical Inventory and Spill Response (SPCC) and the Emergency Action (EAP) and Response Plans (ERP) were updated.

REPAIR & MAINTENANCE

Treatment Facility

- Overhauled both mechanical skimmer arms on the clarifiers
- Installed a chlorine analyzer on the final effluent as mandated by the NH DES. The unit initializes an immediate alarm that notifies system operators of a potential chemical feed problem on the effluent discharge. This allows for immediate corrective measures to be taken resulting in positive regulatory compliance.

Collection system

- In the Spring-2006 a detailed I&I (inflow and infiltration) study was conducted to identify potential cracks, leaks and illegal tie-ins to the sewer system. The abnormally high flows encountered during periods of heavy rains and snow melt has a significant impact on the treatment facility and its ability and capacity to effectively meet treatment parameters. A detailed report has been provided to the Town of which problem areas have been highlighted according to streets and priority.
- In September-2006, with the assistance of Granite State Rural Wastewater, Woodard & Curran captured camera or video images of the high priority streets. No major structural problems were found with the collection system in those areas. Residential "In house surveys" are now underway and we thank everyone for their cooperation. These surveys and similar means of investigation will continue until all of the high impact areas have been surveyed. Any problem identified through this process will be evaluated and addressed as needed to reduce excessive flows to the Wastewater Treatment Facility. In performing this work ourselves Woodard & Curran has allowed for Greenville to save thousands of dollars.

WASTEWATER TREATED 2006 vs. 2005

Month	2006 Gallons	2005 Gallons	Difference +/-
January	6,294,000	4,617,900	+1,676,100
February	5,659,500	3,180,300	+2,479,200
March	4,038,700	4,595,800	-557,100
April	4,207,400	8,063,100	-3,855,700
May	7,404,900	6,834,200	+570,700
June	7,511,300	4,246,600	+3,158,300
July	4,244,800	4,424,800	-180,000
August	3,349,300	4,185,700	-836,400
September	3,438,800	4,821,200	-1,382,400
October	4,341,000	5,005,500	-664,500
November	6,535,600	4,173,900	+2,361,700
December	4,187,700	6,003,800	-1,816,100
Total	61,213,000	60,152,800	+1,060,200

Plant Design Capacity, GPD 233,000

WASTEWATER INFILTRATION / INFLOW STUDY

Executive Summary - Wright-Pierce Engineering

The purpose of the Town of Greenville, New Hampshire Infiltration / Inflow (I/I) study is to determine the extent of clear water entering the sanitary sewer system. Rainwater and groundwater enters the sewer system by infiltration into deteriorating infrastructure. Inflow is from direct connections such as basement sump pumps and foundation or roof drains. Reducing the quantity of rain water treated at the Wastewater Treatment Facility saves the Town money in operational costs and increases the capacity of the Wastewater Treatment Facility (WWTF).

Initially, operational data compiled by the WWTF was reviewed as part of the study proposal. In general, flows were found to peak during the spring snowmelt/rainfall season and have periodically exceeded the current permitted flow (233,000 gpd), more frequently as of late. The study period began on April 13th when two continuously monitoring flow meters were installed in the sewer system to measure flows from the town side of the collection system and Pilgrim Foods was monitored until November 29th.

During the study period, rainfall data was collected from National Oceanic and Atmospheric Administration and compared to WWTF flows to determine two nights in which instantaneous flow monitoring would be conducted throughout the collection system. This data, in combination with potable water consumption data and pump station flow data, was used to calculate I/I rates existing in the collection system. Based on the results of this study, significant I/I was identified throughout the collection system. In addition, areas were identified and prioritized by street/area and recommendations for further study to pinpoint sources of extraneous flows have been made.

The two methods that are recommended to better pinpoint the sources are House-to-House surveys and Closed Circuit TV inspections (CCTV). House-to-House surveys will identify illicit sump pump, foundation drains, and roof leader connections to the sewer. CCTV inspection conducted during wet weather is effective in determining the condition of the sewer pipe and service connections and spotting leaks. In order to complete investigation of the system, access to a number of paved over manholes is necessary. Estimated costs to conduct further investigations have been included in Section 4.3 of this report.

The next phase should be conducting the recommended investigative work needed to better pinpoint the source of I/I followed by the recommended

remediation. It is important to note that more than 50% of the I/I sources can come from private sources, sump pumps, leaking sewer services, foundations and roof drains. Reduction of private I/I sources can be challenging and may require enforcement and/or modification of the Towns Sewer Use Ordinance and or development of policies to address how improvements on private properties can be funded. Developing a new strategy to manage and/or reduce flows from Pilgrim Foods is also recommended.

WATER TREATMENT FACILITY

Woodard & Curran provided complete Operations and Maintenance of the Water Treatment Facility, two storage tanks, the distribution system, water meter reading and repairs and hydrant flushing and winterization. The Water Treatment Facility has continued testing for over 90 possible contaminants with no violations for the year as regulated by the EPA and NH DES.

STAFFING & TRAINING

The Water and Wastewater systems are staffed jointly with 3 personnel. The system operators are fully licensed by the State and are current with EPA, NHDES and OSHA operating guidelines and regulatory reporting requirements.

Note: Additional personnel are utilized when needed and are supplied by Woodard & Curran at no additional cost to the Town. Such personnel include licensed electricians, pump and instrument experts, process control technical experts and computer technicians. Back-up, licensed operators are also provided for vacation, holiday and sick day coverage.

OPERATION & MAINTENANCE

Woodard & Curran has been proactive in equipment repairs, both routine and capital, as well as implementing new procedures allowing for optimized treatment process. Training was conducted for all department personnel including topics on facility operations, regulatory reporting, administrative functions and safety. The following items highlight the year's activities beyond routine.

In February an internal safety inspection of the treatment facility was conducted by Woodard & Curran's Health & Safety Director. Woodard & Curran has an extensive and expansive health and safety program that is maintained to OSHA safety standards. Results of this inspection allowed minor deficiencies to be identified and were corrected within one week. Accordingly, we maintained 100 % compliance with OSHA, EPA and NH DES safety standards and guidelines.

SYSTEM OPERATIONS

The water department recorded some dirty water complaints that can be attributed to long residence time and periods of excessive draws within the distribution system. Extensive water quality analysis was performed and all

results met stringent EPA standards. However, higher than normal manganese residuals were discovered in the system during the summer months. The levels found were still below the EPA standard of 0.05 mg/l. In light of the findings we will now be flushing the fire hydrants 2 times a year with anticipated months being April and September. As required, proper notification will be provided to ensure all customers are notified of the exact dates. Additionally, polyphosphate (sequestering agent) addition is being reviewed for chemical injection at the treatment facility. This product is designed to sequester the manganese and not allow it to come out in particle form in the system.

REPAIR & MAINTENANCE

Treatment Facility

Hardware and software upgrades were installed on the SCADA (Supervisory Control and Data Acquisition) system at the treatment facility. This computer system assists with the daily controls, process monitoring and data recording of the facility and its on-line instrumentation and automated control features. These upgrades replaced the original outdated and unserviceable equipment (8-years old). This upgraded system now allows for the effective monitoring of all alarms, flow data and water quality analysis.

A temporary caustic feed system was installed on the lagoon discharge for proper pH adjustment allowing for NH DES permit compliance.

Distribution maintenance

- Hydrant flushing and annual maintenance.
- Corrected the improper installation of 10 water meters
- Repaired 4 fire hydrants
- Performed 1 water service line tie in on Pleasant Street
- Replaced 5 expansion tanks and 3 PRV's, (pressure reducing valves)
- A 5-year inspection of the Barrett Hill water tank was conducted by Underwater Solutions, both internal and external and is in excellent condition.

FILTERED WATER REPORT

Month	Gallons Filtered 2006	Gallons Filtered 2005
